## PROPERTY DESCRIPTION

### PROPERTY DESCRIPTION

Wonderful outdoor spaces complement this flowing three bedroom, plus office, three bathroom, two car garage home on two plus acres. It has an open floor plan, combining the kitchen with bar, dining room and living room with wood-burning fireplace. Kitchen and bar countertops are a subdued travertine. Wooden shutters cover windows when not open to let in the high desert light. There is good bedroom separation. The master has a fireplace and opens onto the back portal, surrounded by lush grass, aspen and flowering perennials. A California walk-in closet organizes clothes. The bath has a separate glass enclosed shower and separate tub. A one bedroom, one bath casita is included, off the front portal, and can make for an artist studio or workout room. Outside areas include landscaped front and back flagstone portals surrounded by stuccoed walls. The back portal includes an outdoor woodburning fireplace. A flagstone walkway leads around the western side of the home from the front driveway. Gates and doors are custom designed with artistic detailing. This home is move-in ready.
